

5. If an applicant requests prequalification under any of the three bridge classifications shown on page iv, he must furnish evidence that his company did construct such a bridge or bridges. Information required consists of location, project number, owner, date of completion, name and telephone number of project engineer, contract amount, total length of bridge, length and number of spans, type of construction and other pertinent information. If applicant is prequalified for major bridge construction, he is considered qualified for intermediate and minor bridges. If qualified for intermediate bridge, he is also qualified for minor bridges. Failure to complete this item in detail will cause bridge classification to be denied. Use additional paper if necessary.

6. Give names and addresses of all banks with whom you have done business during the last three years, exclusive of those shown in Financial Statement.

Name of Bank	Location	Name and Address of Officers with Whom You Transacted Business

7. Give names and addresses of material or equipment houses with whom you have established a line of credit and purchased principal equipment and materials during the past three years.

Name of Firm or Company	Address

8. List all persons and their titles who are authorized to sign bid documents, contracts, supplemental agreements, force accounts, and estimates:

Name	Title
