As of: 2/21/2023

Item	Question	Answer
1	I see the sign structure has been addressed from the last letting and now it appears the signs are to be replaced as well. Is there supposed to be a pay item for the signs or are they subsidiary to the structure? Is there a supposed to be a removal item for the existing structure?	Pay item 710A-187 has been added for the new sign panels and 206E-020 has been added for the existing overhead sign removal.
2	Sheet 10 shows a 55mph sign being relocated, however there is not a bid item or project note for relocation of signage.  Sheets 19 & 19A of the plans show two guide signs to be installed on the Overhead Sign Bridge, however there is not a bid item or plan note to furnish and install the signs.	Pay item 711A-000 has been added for the roadway sign relocation.  Please see Revision 1 for the addition of pay item 710A-187 for the sign panels.
