

Alabama Department of Transportation - Proposal Questions and Answers

Project Number ATRP2-39-2022-039

Call # 044

County

LAUDERDALE

Project Description

For constructing the Intersection Improvements (Turn Lane Installations, Grading, Drainage, Pavement, Traffic Signals, and Traffic Stripe) on SR-2 (US-43) at CR-61 (Middle Road) in Florence. Length 0.185 mi. In the County of LAUDERDALE, State of Alabama.

As of: 2/8/2024

Item	Question	Answer
1	Is there a special detail drawing that addresses the 5 Cu. Yds. of minor structure concrete, (Reqd. Drainage Summary, Plan sheet 3B)? According to the drainage sections, (Plan sheet 25) there is only 1 concrete collar required, Structure No. 10 on a single line, 24" RCP. 5 Cubic yards seems excessive for one collar that should take less than 0.5, (1/2) cubic yard to construct.	See flagged revision # 1.
